About us

MELCO Trading organization, formerly known as Master Equipment, was established in 2025 in Dammam. The company has been committed to providing high-quality services that meet the growing needs of the Saudi market in the sectors of Safety Equipment, and general trading.

Objectives

OUR MISSION

We meet our clients' needs through high-quality products and services driven by innovation and efficiency, building long-term partnerships based on trust and commitment to support mutual growth.

OUR VISION

To be the first choice and trusted destination in the commercial sector by delivering innovative products and services that enhance business efficiency and contribute to sustainable economic growth in the Kingdom of Saudi Arabia.

OUR VALUES

"We are driven by quality, innovation, and professionalism—committed to sustainable growth and strong partnerships built on trust."

Our Specialization

Our Safety specializes in providing a comprehensive range of Personal Protective Equipment (PPE) designed to ensure the safety, protection, and well-being of workers across various industries. We understand that workplace hazards can vary, which is why we offer tailored solutions to meet diverse safety needs.

[View](#)

Categories

Head Protection

Helmets and hard hats designed to protect against falling objects, impacts, and head injuries in construction, manufacturing, and industrial settings.

[More](#)

Eye and Face Protection

Safety glasses, goggles, and face shields that guard against chemical splashes, dust, debris, and other potential hazards.

[More](#)

Hearing Protection

Earplugs and earmuffs to reduce noise exposure, protecting workers in environments with high decibel levels.

[More](#)

Categories

Respiratory Protection

Masks, respirators, and filters to protect against harmful fumes, dust, and airborne contaminants.

[More](#)

Hand Protection

Safety gloves suitable for various applications, including cut-resistant, chemical-resistant, heat-resistant, and general-purpose gloves.

[More](#)

Body Protection

Earplugs and earmuffs to reduce noise exposure, protecting workers in environments with high decibel levels.

[More](#)

Categories

Foot Protection

Safety boots and shoes equipped with steel toes, slip resistance, and puncture protection for optimal safety in diverse work environments.

[More](#)

Gas Detector

Gas detectors monitor air and trigger alarms when dangerous gas levels are detected, ensuring safety.

Hearing

3M

3M™ Earplugs 1100 Series

Disposable foam earplugs,
Offers excellent hearing
protection with a comfortable
fit, designed for use in noisy
environments.

3M

3M™ Foam Earplugs 1110, Coded

Foam earplugs with cord, Soft
foam material for comfort,
coded for easy removal and
storage, effective noise
reduction.

3M

3M™ E-A-R™ TaperFit™ 2 Large Uncoded Earplugs

Uncoded foam earplugs, , Hearing
Conservation 312-1221 in PolyBag,
Designed for hearing conservation,
these earplugs offer a tapered shape
for a comfortable fit and good noise
attenuation.

Hearing

3M

**3M™ E-A-R™ TaperFit™ 2
Corded Earplugs 312-1223,
Regular**

Corded foam earplugs, regular-sized tapered earplugs, ideal for use in high-noise environments, and the cord keeps them easily accessible.

3M

**3M™ Peltor™ Optime™ 98 Cap-
Mount Earmuffs, Hearing
Conservation H9P3E**

Cap-mounted earmuffs, designed for hearing conservation with a comfortable cap-mounting system, effective at reducing noise exposure.

3M

**3M™ PELTOR™ Optime™ 105
Over-the-Head Earmuffs
H10A HV**

Over-the-head earmuffs, high noise reduction earmuffs designed for heavy-duty use in high-noise environments, with adjustable headband for comfort.

Hearing

3M

**3M™ PELTOR™ Optime™ II
Earmuffs H520A, SNR value
31 dB, Green**

Over-the-head earmuffs, Green earmuffs with a high noise reduction rating, suitable for use in moderately noisy environments.

3M

**3M™ PELTOR™ Optime™ I
Earmuffs, Yellow, Headband,
H510A-401-GU**

Cap-mounted earmuffs, designed for hearing conservation with a comfortable cap-mounting system, effective at reducing noise exposure.

3M

**3M™ PELTOR™ Optime™ 105
Over-the-Head Earmuffs
H10A HV**

Over-the-head earmuffs, High noise reduction earmuffs designed for heavy-duty use in high-noise environments, with adjustable headband for comfort.

Respiratory

3M™ Particulate Respirator 8210

N95 respirator, designed to help provide reliable respiratory protection against certain non-oil based particles. Commonly used in industrial and healthcare environments.

3M™ Half Facepiece Reusable Respirator 6200/07025(AAD)

Half facepiece respirator, Medium, Reusable, designed for use with 3M™ filters and cartridges. Offers protection from various gases, vapors, and particulates.

3M™ Reusable Full Face Mask 6800

Full face respirator, Medium, Provides full-face protection, including eyes and face, and is suitable for use with various filters and cartridges. Offers enhanced protection from gases, vapors, and particulates.

Respiratory

3M

**3M™ Organic Vapor
Cartridge 6001**

Type: Organic vapor cartridge

Features: Designed to help protect against a wide range of organic vapors. Used with compatible 3M™ half and full facepiece respirators.

3M

**3M™ Organic Vapor/Acid Gas
Cartridge 6003/07047(AAD)**

Type: Organic vapor/acid gas cartridge

Features: Protects against both organic vapors and acid gases, suitable for a wide range of industrial and chemical environments.

3M

**3M™ Multi Gas/Vapor
Cartridge 6006**

Type: Multi-gas/vapor cartridge

Features: Provides protection from multiple gases and vapors, ideal for more complex hazardous environments.

Hand

SAFETY JOGGER
SAFETY SHOES

Safety Jogger PROTECTOR 4X44C

Cut-resistant HPPE (High-Performance Polyethylene). Coating: Double nitrile coating. Offers high protection against cuts while providing durability and resistance to abrasions. Ideal for tasks requiring cut resistance and strong grip, such as construction, metalworking, or handling sharp objects.

SAFETY JOGGER
SAFETY SHOES

Safety Jogger ALLFLEX 4131A

Designed for maximum dexterity and sensitivity. Coating: Light coating for sensitive handling. Offers basic protection with high tactile sensitivity for delicate work. Suitable for tasks requiring fine motor skills and precision, such as electronics assembly or medical work.

SAFETY JOGGER
SAFETY SHOES

Safety Jogger SHIELD 4X43C

Cut-resistant HPPE (High-Performance Polyethylene). Coating: Polyurethane coating. Offers cut resistance and a light coating for a good grip while maintaining flexibility. Best for light handling in environments with moderate cut risks, such as logistics.

Footwear

X330 S3

Features: Heavy-duty safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, great for industrial tasks with water resistance and slip resistance.

HEKLA S3S MID

Features: Mid-height safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, ideal for rugged environments with slip and cold insulation.

MARS-EH SB

Features: Electrical hazard safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, suitable for electrical environments with heat resistance (HRO).

Footwear

ULTIMA S3

Features Heavy-duty safety shoe with crazy horse leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, ideal for harsh environments with ESD and heat resistance (HRO).

ALTAR S3 HIGH

Features: High-cut safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, designed for heavy industrial tasks with water resistance and slip resistance.

BASALT S7S

Features: Waterproof safety boot with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, perfect for wet and cold environments with slip resistance.

Footwear

MODULO S3S LOW TLS

Features: Low-cut TLS safety shoe with microfiber upper, BASF PU outsole, nano carbon toecap, anti-puncture textile midsole, perfect for workers needing comfort and ESD protection.

MODULO ARMOR S3S LOW

Features: Low-cut safety shoe with abrasion-resistant synthetic fabric upper, BASF PU outsole, nano carbon toecap, anti-puncture textile midsole, great for rugged environments with ESD needs.

X430 S3

Features: Heavy-duty safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, perfect for extreme conditions with water resistance and heat resistance (HRO).

Footwear

DAKAR-EH SB

Features: Electrical hazard safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, ideal for high-voltage tasks with slip resistance.

X330-EH SB

Features: Electrical hazard safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, perfect for electrical environments with slip resistance.

X430-EH SB

Features: Electrical hazard safety shoe with leather upper, PU/rubber (NBR) outsole, composite toecap, anti-puncture textile midsole, designed for high-voltage tasks with heat resistance (HRO).

Footwear

Safety Jogger X2000 S3

Design: Mid-cut shoe for everyday use.

Features: Steel toe, slip-resistant, oil-resistant.

Use: Reliable for daily tasks, offering protection and comfort for industrial or construction workers.

Safety Jogger X2020 S3

Design: Low-cut shoe for daily use.

Features: Steel toe, oil-resistant, slip-resistant.

Use: Excellent for workers in environments requiring comfortable, flexible shoes with standard protective features.

MODULO S3S MID TLS

Features: Mid-height TLS safety shoe with microfiber upper, BASF PU outsole, nano carbon toecap, anti-puncture textile midsole, ideal for industrial environments requiring ESD and slip resistance

Use: Suitable for workers in environments with electrical hazards, heat, and slippery surfaces.

Footwear

Safety Jogger HERCULES S5 FO

Material: High puncture-resistant PVC.

Features: Steel toe, anti-puncture, oil, and slip resistance, suitable for hazardous environments.

Use: Ideal for heavy-duty industrial tasks or situations with high puncture risk.

Safety Jogger Bestboy S3

Design: Mid-cut, metal-free.

Features: Non-metallic toe, oil and slip-resistant, water-resistant.

Use: Comfortable for workers who need flexibility and metal-free shoes, such as in electronics or airport security.

Safety Jogger Bestrun S3

Design: Low-cut safety shoe.

Features: Non-metallic toe, slip-resistant, comfortable for all-day use.

Use: Great for light industrial environments where agility and comfort are priorities.

Work ware

61111 Desert/Tropical FR Coverall

Features: Flame-resistant garment, Anti-static garment, Electric arc flash protection, CAT2 rating (Category 2 protection for electrical arc flash).

Use: Designed for workers exposed to electrical hazards and flame risks in desert or tropical climates.

61640 Desert Tropical Non-FR Coverall

Features: Non-flame resistant coverall.

Use: Ideal for workers in hot climates where flame resistance is not a requirement but comfort and breathability are important.

61615 Desert Tropical FR Coverall

Features: Flame-resistant garment, Anti-static garment, Electric arc flash protection

Use: Provides protection against fire, electric arcs, and static buildup in tropical environments.

Work Ware

66411 FR Plain Front Trousers

Features: Flame-resistant garment, Anti-static garment, Electric arc flash protection, CAT2 rating.

Use: Flame-resistant trousers for workers exposed to electrical hazards, ideal for industrial environments requiring high protection.

66311 FR Shirt

Features: Flame-resistant garment, Anti-static garment, Electric arc flash protection, CAT2 rating.

Use: Flame-resistant shirt for high-risk environments, offering protection from electric arcs and static discharge.

69007 Soft Shell Jacket

Features: Oil-resistant garment, Windproof, Water-resistant.

Use: Suitable for workers in outdoor environments exposed to harsh weather conditions like wind and rain, offering comfort and protection.

Work Ware

69018 Soft Shell Jacket

Features: Windproof, Water-resistant.

Use: Ideal for workers needing protection from wind and water in milder climates or environments.

69006 Winter Soft Shell Jacket

Features: Insulated, Wind and water-resistant.

Use: Designed for cold weather conditions, providing insulation along with wind and water protection.

69019 Backpack

Features: Durable, suitable for carrying tools and equipment.

Use: For transporting tools and personal items in various industrial or outdoor environments.

Gas Detector

BW
Technologies

BW Clip Series Single-Gas Detector

Available for detecting gases such as: H₂S, CO, O₂, SO₂, NH₃, And other toxic or flammable gases.

BW
Technologies

BW™ Gasalert Max XT LL Multi Gas (LEL, H₂S, CO, O₂)

It is capable of detecting four gases simultaneously: LEL, H₂S, CO, O₂ (Oxygen)

BW
Technologies

BW™ MicroClip XL Serviceable Multi-Gas Detector (LEL, H₂S, CO, O₂)

Multi-gas detector designed to monitor four gases simultaneously: LEL, H₂S, CO, and O₂
